PRODUCT MANAGER • SAN FRANCISCO, CA

Product leader and hands-on builder with 7+ years scaling marketplace initiatives at Turo, with roots in growth marketing and acquisition strategy. Built the Co-Host Network from zero to $50M in annualized GBV, a new line of business, while directly managing a team of four. Now own host efficiency, pricing & discount tools, multi-party payments, trust, trip reliability, and marketplace growth; leading a pod of seven frontend and backend engineers and two designers. Outside work, I build real-time multi-user AI products and e-commerce businesses, surf terribly, and make excellent lattes. ***TL;DR: I ship things.***

PROFESSIONAL EXPERIENCE

Product Manager • Growth & Efficiency • Turo **Jun 2025 - Present**

Own product strategy, roadmap, and execution for pricing, payments, trust, trip reliability, and marketplace growth, leading a full-stack pod of seven engineers (four frontend, three backend) and two designers, with analytics partners. Launched in-app vehicle swaps, turning a 30-minute support process into a 30-second self-serve flow and cutting related support calls by 50%. Leading Turo Camera 2.0, redesigning photo capture across iOS and Android with offline functionality, provenance controls, and streamlined workflows to address a major marketplace trust vulnerability. Shipped marketplace pricing and discount systems, designed multi-party payment infrastructure, and launched guest flight tracking.

Product Lead, Seed Product Innovation Lab • Manager, Product Marketing • Turo **Jan 2023 - Jun 2025**

Led zero-to-one development of Turo's Co-Host Network, building a marketplace connecting vehicle owners with professional operators and scaling it from a dual-market pilot MVP to nationwide launch and $50M in annualized GBV, establishing a new line of business. Managed a team of four and owned product strategy, discovery, user research, UX, and operations from concept through national and international expansion. Wrote the production React onboarding flow and a geo-based owner–operator matching algorithm, partnering closely with engineering, design, legal and operations to scale the platform.

Senior Marketing Manager • Product Development & Market Expansion • Turo **Jan 2021 - Jan 2023**

Led supply-side strategy for Turo’s market launches in New York and Australia, spanning host acquisition, onboarding, UX research, and product prototyping. Architected a nationwide host incentive platform with tiered rewards tied to performance, self-serve enrollment, live progress tracking, and automated, auditable payouts, powering multimillion-dollar campaigns that expanded supply in constrained markets during Turo’s record revenue year. Rebuilt host onboarding funnels and built a LightGBM recommendation engine predicting host ROI by vehicle, market, and pricing strategy.

Marketing Manager • Supply Growth & Strategy • Turo **Jul 2019 - Jan 2021**

Led Turo’s post-COVID pivot from consumer hosts to professional operators, building the business case and securing leadership alignment for a strategy that doubled vehicle supply in 12 months during the company’s highest-growth year. Owned supply growth strategy and multimillion-dollar acquisition budgets, and built the acquisition and measurement systems behind them. Launched a nationwide delivery network giving hosts the operational supplies to run their businesses.

TANDEMCHAT.AI

SIDE PROJECT

Designed and shipped a real-time collaborative AI app for group trip planning and decisions, where streaming LLM responses appear live for every participant. Solo full-stack build on React, Node, and Supabase, deployed on Vercel.

TRUE NORTH POSTERS

SIDE PROJECT

Built a personalized travel-map art business from consumer insight to profitability in 90 days. Launched a custom DTC site with a dynamic map customization tool, and grew it through rapid iteration and data-driven growth marketing.

EDUCATION

Master’s | Global Studies (Focus: International Business, Innovation & Product Design) **UC Berkeley**
Built products end to end at the Jacobs Innovation Lab, taught ~150 students, and completed Haas Evening MBA program.

Bachelor’s | Political Economy (Focus: Resource Management & Global Systems) **UC Berkeley**
Researched root causes of Bali’s water crisis through multilingual fieldwork; CS courses in OOP, algorithms, data structures.
