Product manager and hands-on builder with 7+ years at Turo spanning product management, team management, growth marketing, and marketplace strategy. Led Innovation Lab product development and built the Co-Host Network from zero to $50M annualized GBV, directly managing four people. Now lead a team of seven engineers and two designers across growth, pricing, payments, trust, trip reliability, and host efficiency. I also surf terribly but make excellent lattes.

PRODUCT MANAGER • GROWTH & EFFICIENCY • TURO

Jun 2025 - Present

Product leadership | Own product growth and efficiency strategy, roadmap, and execution, leading a cross-functional pod of seven engineers and two designers across growth, pricing, payments, trust, cost reduction, and trip reliability.

Growth & conversion | Increased conversion for 3+ day trips by 2.4% relative through two market-wide pricing initiatives that expanded host control over personalized discounts and optimized guest checkout for long-duration trips.

Cost reduction | Reduced vehicle swap-related support calls by 52% by launching in-app vehicle swaps, replacing a 25-minute support process with a 30-second self-service in-product workflow, saving $1.1M annually in support costs.

Payments architecture | Designed multi-party payment architecture, prototyped V1 using Stripe's APIs, and defined identity and access permissions for a new marketplace user type in partnership with Audit, Compliance, and Tax.

Fraud mitigation | Led Turo Camera 2.0 development across iOS and Android, redesigning photo capture with offline functionality and encrypted provenance controls to establish photo authenticity and combat AI-generated damage fraud.

Trip reliability | Launched international flight tracking for airport trips, representing 35% of Turo's bookings, increasing guest-reported future purchase intent by 9% while lowering customer success costs and improving host efficiency.

TEAM LEAD, PRODUCT INNOVATION LAB • MANAGER, PRODUCT MARKETING • TURO

Jan 2023 - Jun 2025

Innovation lab leadership | Led Innovation Lab product development in a hybrid product management and marketing role, testing unproven concepts for product-market fit and commercial potential through UX research and prototyping.

New vertical launch & scale | Built Turo's Co-Host Network from a two-market pilot to nationwide launch and $50M in annualized GBV, creating a new business vertical connecting vehicle owners with professional operators at scale.

Matching algorithm | Built the production V1 onboarding flow and owner/operator matching algorithm; partnered with Engineering and Design to improve matching and strengthen UX trust signals, increasing conversion from 12% to 19%.

Team management | Directly managed four people, setting strategy and team goals, delegating product ownership, aligning cross-functional partners, and developing their judgment in discovery, prioritization, and execution.

SR. MARKETING MANAGER • PRODUCT DEVELOPMENT & MARKET EXPANSION • TURO

Jan 2021 - Jan 2023

Incentive product development | Built an interactive host incentive product with personalized progress tracking and automated, auditable payouts, powering a $3.5M campaign that added 1,250+ vehicles in priority markets.

New market launch | Led supply strategy for Turo's Australia launch, delivering 115% of our launch supply target and helping Turo outperform incumbents, contributing to their marketplace exit and establishing Turo as the category leader.

Machine learning | Personally built a LightGBM ML model predicting host ROI by vehicle, market, and pricing strategy, helping prospective hosts evaluate returns and select the best vehicles to purchase as they scale their businesses.

MARKETING MANAGER • SUPPLY GROWTH & STRATEGY • TURO

Jul 2019 - Jan 2021

Marketplace strategy | Built the business case, developed new marketing positioning, and secured leadership alignment for Turo's post-COVID pivot to professional operators, helping double vehicle supply in 12 months across the US market.

Acquisition & analytics | Led digital acquisition strategy, creative development, and campaign deployment, managing a $15M annual budget. Implemented product Segment events, web-funnel tracking & built custom performance dashboards.
